

BlackBerry Messenger

Tips & tricks volume 7

How to share a music file through BlackBerry Messenger

- Enter BlackBerry Messenger and push the menu button and select **Send File**.
- Next, select 'File' from the menu and navigate to your music folder (media card) and select the song you wish to transfer.

Tip - share what you're listening to by selecting the option found within your BlackBerry Messenger profile - a great way to help other discover new music and return the favour.

Why share content via BlackBerry Messenger?

- No need to worry about viruses - files transferred from trusted BlackBerry Messenger contacts.
- Easy way to share content with friends and family.
- No need to load content onto device since the transaction is taking place natively.

You can also share all types of files like music, pictures, voice notes, or documents in a similar way! Methods of transferring may differ between handheld software versions.
